

X Wire[®]

Next Generation Guidewire

CONMED's XWire[®] Guidewire features proprietary nitinol core composition with a hydrophilically coated floppy distal tip. XWire[®] provides optimal fluoroscopic visibility and flexibility for effective transition across the elevator of the duodenoscope.

Explore

Tapered Distal 20cm

- Provides optimum flexibility for effective transition across the elevator of the duodenoscope

Hydrophilically Coated Floppy Distal Tip

- Lubricious coating enhances cannulation and stricture access capability

Examine

Radiopaque Floppy Tip

- Provides optimal fluoroscopic visibility
- Optimized flexibility for maneuvering through tortuous angles of the anatomy

Simple Yet Functional Endoscopic Measurement System

- 1cm spaced visual markings, extend 30cm from wire tip
- Multiple markings every 5cm provide a simple, easy to decipher, endoscopic stricture measurement system
- Helps detect inadvertent wire movement
- Ideal color combination for easy visualization
